MULTI-MODE MOTOR SYSTEM

Multi-mode Motor System i.e., 1490 / 3000 / 5000 Watt provides power for your sprint, faster acceleration time.

≥235 N*M

Peak Torque

27°

Climb Capability

85 KM/HOUR

Maximum Speed

COLOURS AVAILABLE

2*72V 20AH LITHIUM-ION NCM BATTERIES

The combination of nickel, cobalt and manganese (NCM) results in a stable chemistry that minimizes the risk of thermal runaway and overheating. Double Lithium NCM Batteries have the characteristics of enhanced energy density and outclass performance in low-temperature and high-temperature conditions ranging -20°C ~ 55°C.

WATERPROOF DESIGN

You will get strong power and safe performance with its 320mm Waterproof Standard.

SPECIFICATIONS

SPEED	Upto 85 km/hour
MOTOR POWER	1490 Watt @ Shift 1 3000 Watt @ Shift 2 5000 Watt @ Shift 3
BATTERIES	72V X 20AH = 1440 Watt X 2 Packs = 2880 Watt Lithium-ion (NCM)
BRAKE	Front & Rear Disc Brakes with CBS
TYRES	Tubeless: F&R 120/70-12"
RANGE PER CHARGE	120 km @ Speed 50 km per hour (Shift 1). 95 km @ Speed 70 km per hour (Shift 2). 85 km @ Speed 85 km per hour (Shift 3).
CONTROLLER	2x12 mosfets
MOTOR & BATTERIES WARRANTY	24 Months or 30,000 km
RIMS	Front & Rear 12-inches (Aluminium Alloy)
GROUND CLEARANCE	173 mm
DIMENSIONS	1840 X 780 X 1050 mm
